Copenhagen  
Denmark*

Dear Friends of Nhaka Afrikan Worldview (NAW) Trust

The creation of Nhakas Venner in Denmark and the support to start a unique nutrition garden which is transforming itself gradually to become a Rural Technological Centre as a good move to involve all the surrounding communities to utilize all the knowledge and resources available for their benefit as rural folk.

We thank Nhakas Venner for this initiative. The complementary support received which included the visit by the representatives of Nhakas Venner - Michael and KariBente, the cell phones donation and the solar lamps have all strengthened this project.

We are proud to say that we now have a place we can proudly show prospective partners. We have had a visit by Pensioners Union Trust of Zimbabwe (PUTZ) and we are already drafting a MoU – Memorandum of Understanding to be signed soon. A project proposal has been developed and sent to different partners that include SIDA and 4 more. I have attached the draft proposal worth usd 150 000 which I have now attached.

Another issue is that we are busy restructuring Nhaka Afrikan Worldview Trust. According to the Trust Deed , Trustees can stay for 3 years and thereafter they have to be replaced or reappointed. We are therefore communicating and a meeting will soon be convened. We also like to start having contributions from people wishing to be members so that we have a financial base to run the organization.

On behalf of all here in NAW, we are wishing you the best in your meeting.

Yours Sincerely

Bob I. M. Dzere
